EXAMINER'S AMENDMENT

1. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stanley Ference on 7/7/2005.

The application has been amended as follows:

Claim 9, on Line 14, replace "character groups; and" with --character groups;--.

Insert the following immediately after line 14: --coding a first character of the character sequence with five (5) bits; and--.

Cancel claim 10.

(end of examiner's amendment)

Allowable Subject Matter

3. Claims 9, 11-13 are allowed.

It is noted that the closest prior art of record, Gadd ("PHONIX: The Algorithm" Program, October 1990) teaches the coding of phonetic information in a code, but does not teach the decreasing of coding precision from the beginning of the character sequence. Thus, independent claims 9, 11 and 13 are allowable over the prior art of record because the cited prior art alone or in combination, does not fairly suggest or disclose the claimed combination of features.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement for Reasons of Allowance."
